

Curriculum Prerequisite

The purpose of a prerequisite and/or a co-requisite is to ensure student success in subsequent coursework. While successful completion of prerequisites and/or co-requisites is the traditional way students demonstrate readiness, in exceptional circumstances, students may demonstrate readiness through other means. In such cases, prerequisites or co-requisites may be waived with appropriate approvals and permission of the Dean and Vice President for Academic and Student Affairs. Documentation of the approved waiver will be maintained on file.
